

# AUTO AIR EVACUATION

**Air Compressor**

## Auto Air Evacuation Technology

You don't need to evacuate the compressor,  
Compressor is doing auto evacuation

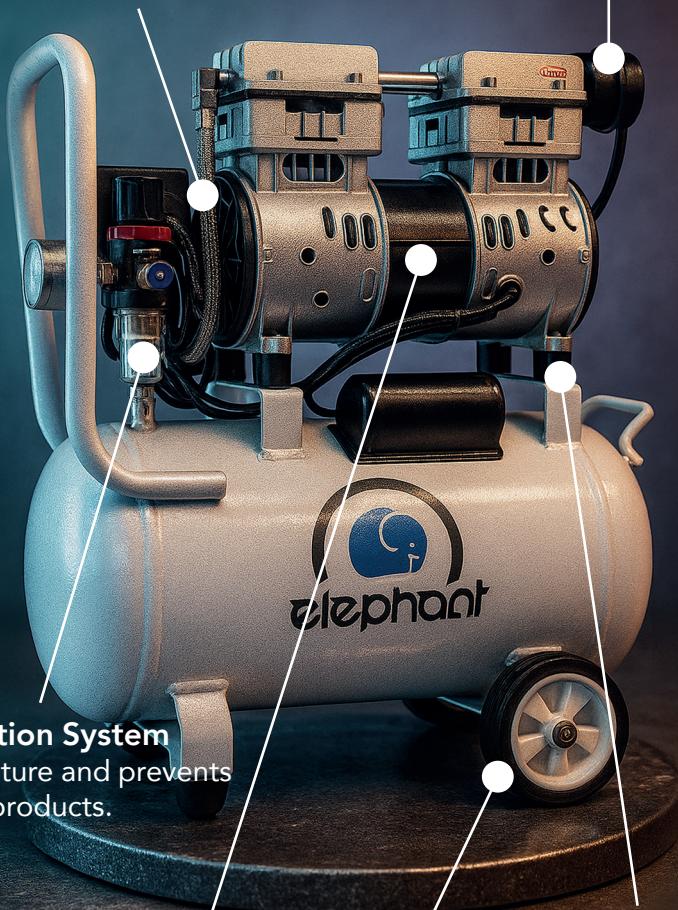

## Performance You Can Trust

The Dental Air Compressor delivers clean, dry, and reliable air for all dental applications. Its oil-free technology ensures pure air with minimal noise and vibration, while anti-corrosive materials and advanced filtration provide long-lasting, consistent performance.

# KEY FEATURES

## Anti-Corrosive Connections

Protects internal parts and extends service life.

## Audio Noise Filter

Effectively lowers sound output for a quieter clinic environment.

## Water Filtration System

Reduces moisture and prevents corrosive by-products.

## Oil-Free System

Provides pure, hygienic air with zero oil residue.

## Rubber Foot Design

Reduces vibration and enhances stability.

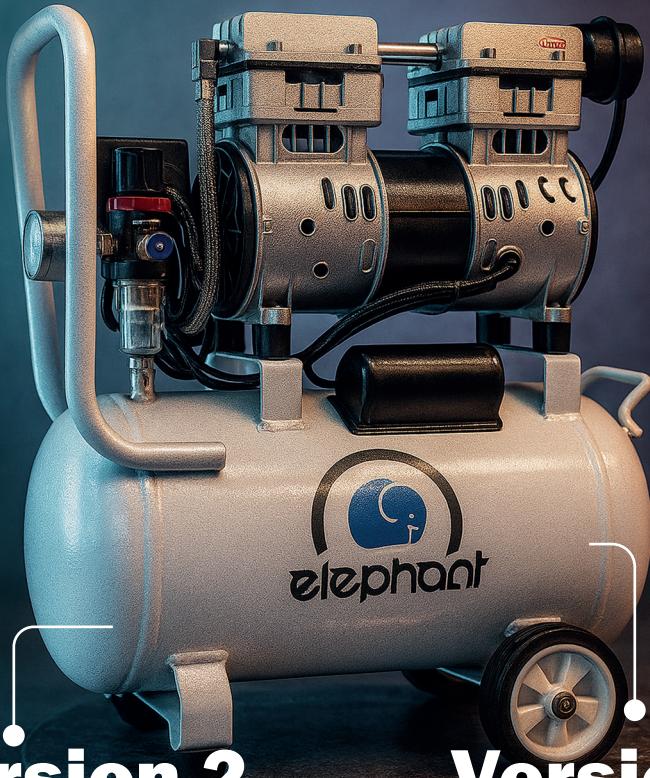

## Rubber Pad Under Compressor Head

Minimizes both noise and vibration for smoother operation.

**Version 2**

Model: SD140/8A  
Capacity: 330L/min  
V/Hz: 220V/50Hz  
Exhaust pressure: 0.8Mpa  
Power: 850W x 2  
Size: 81x35x63cm  
Tank: 60L  
G.W: 42.2Kg  
Date: 2025.05

**Version 1**

**MODEL: SD70/8A**  
**CAPACITY: 165L/min**  
**V/Hz: 220V/50Hz**  
**EXHAUST PRESSURE: 0.8Mpa**  
**POWER: 850W**  
**SIZE: 57x31x63.5cm**  
**TANK: 38L**  
**G.W: 24Kg**  
**DATE: 2025.05**
