

Elephant X-ray

Precision Imaging. Comfortable Control.

Portable diagnostic imaging
designed for modern
clinical workflow.

ADVANCED PORTABLE IMAGING –

Elephant X-ray

Precision imaging engineered
for modern clinical workflow.

01

Adjustable Buttons

Enhance diagnostic efficiency
with quick and intuitive
control access.

02

Intelligent Angle Adjustment

Sharper images through
optimized positioning
flexibility.

03

Recessed Power Button

Designed to prevent accidental presses during operation.

04

Extended Handle

Comfortable grip for smoother handling and easier positioning.

05

Sleek & Minimalist Design

A refined modern form tailored for advanced clinical environments.

Comfort in every grip,

Designed with an ergonomic handle for effortless control and a smooth, comfortable user experience all day long.

Extended arm design

for enhanced comfort, better balance, easier positioning, and reduced radiation exposure during operation.

After Extension

Product Parameters

Engineered for precision.
Built for reliable performance.

Tube Voltage:	70kV \pm 10%
Tube Current:	2mA-20%
Input Voltage:	100V-240V
Frequency:	50Hz-60Hz
Anode Angle:	12.5°
Focus:	0.4mm
Exposure Time Range:	0.02s – 2.0s
Leak Emissivity:	1 mR/h @ 2.5cmGy/h
Machine Weight:	2.2kg
Relative Humidity:	30%RH-75%RH
